

DTECH DT-7022A

HDMI to VGA HD Converter

Overview

- **DTEch** is a high-tech company which researches, designs and manufactures a wide range of signal distribution products and cables. Their goal is to offer reliable, competitively priced products for the small office and home environment. The products are perfect for educational installations.

General Specifications

- The Dtech range consists of VGA, HDMI and USB extenders. When extending video signals it is important to use good quality cabling to ensure crisp images. In particular it is recommend that in the case of HDMI, ONLY, quality, Cat6 cable be installed.
- KVM extender is widely used in CCTV system, teaching system, high quality multimedia display, video conference, digital home theater, exhibition, education, finance, scientific research, meteorology and other fields.

Detailed Specifications and Supported Standards

- **Dtech DT-7022A HDMI to VGA HD Converter** – HDMI to VGA high-definition converter, can convert HDMI digital signal into VGA analog video signal and 3.5mm interface stereo audio signal, so that high-definition HDMI signal can be converted into analog audio and video signals available for ordinary displays, projectors, etc. VGA interface displays, projector etc.
 - Output VGA signal format: 1920 x 1080 backward compatible.
 - Input HDMI signal format: 1080P (50/60Hz) backward compatible.
 - VGA output impedance: 75Ω
 - HDMI input impedance: 100Ω
 - Working environment temperature: -25 ° C -75 ° C
 - Working environment humidity: 65%
 - Product size: 88 * 48.5 * 20mm (L*W*H)
 - Maximum working current: DC5V/350mA

Packaging

Durable DTECH cardboard box.

Warranty

- 12 month warranty on manufacture defects
- Specifications and warranty subject to change without notice.
